Volusia County Feels the Same.

The final returns from the first Primary show that while Senator Taliaferro made a splendid race under all the circumstances, yet he did not receive enough votes to give him a majoritynot quite enough to secure the nomination over all his competitors

Holmes county has already, by a strong plurality, expressed her wish that Senator Taliaferro should according to the old Democratic rule, succeed himself in the United States Senate, and the entire State, by a vote that lacked but little of being a plurality over all his competitors, has made it plain that the dis tinguished gentleman was the choice of the State in the great contest just closed There is no question but that in the second Primary he will receive an over whelming testimonial of the people confidence in his ability and integrity and their desire that right and justice shall prevail in spite of all the attempted calumnies of selfish politicians.

In the first Primary good old Holme made it plain that she was not a party to such rank injustice as to seek to de prive our noble-hearted Senator of hi just rights. Now, then, let her cove herself with glory by giving Senator Taliaferro at least an overwhelming ma ority on the 7th day of June.
